

# Wisconsin Custom Manure Applicators

Prepared 12/2012 by the UW Extension Environmental Resources Center (ERC) and the Professional Nutrient Applicators Association of Wisconsin.

The listing of a firm (or lack thereof) does not constitute an endorsement (or lack thereof) by UW-Extension or PNAAW, and we do not guarantee the accuracy of any information herein. If you wish to have your firm added to the list or to correct an error, please contact Kevin Erb at 920.391.4652 or email to: [kevin.erb@ces.uwex.edu](mailto:kevin.erb@ces.uwex.edu). If a semi listed as “T”, it transfers, or feeds a tanker, dragline or frac tank in the field; an “A” is a semi that does land application. “P” means the semi has a pump for more even application on alfalfa; “G” means gravity flow discharge. If equipment is listed as “available”, the owner has access via a partnership with another firm. An \* denotes that updated information was not available, but we believe the applicator is still in business. This list is intended for private farmer use and is not for solicitation purposes. For information on the Professional Applicators and a list of Certified Applicators, <http://fyi.uwex.edu/wimanuremgt/about/> Last minor update: 5.21.13

Firm Name, Contact, City (Wisconsin unless noted otherwise)	Phone	Equipment	Radius Served (miles)
